AUDIOLOGY

Select Audiology and Hearing Center can help give patients back the hearing they have lost. Poor hearing can cause people to miss important information, make mistakes, become depressed and feel isolated. Hearing loss can also lead to difficulties in relationships at home and on the job. The Hearing Center can help those with hearing loss once again be able to enjoy music or hear sounds of nature; helping them to feel connected to the world around them.

Select Audiology and Hearing Center
Community Campus, Memorial Building
2501 North Third Street, Basement, Harrisburg, PA 17110
Phone: (717) 782-6450 | Fax: (717) 782-6408
BAILEY HOUSE

Bailey House provides families who live outside the immediate Harrisburg area with a comfortable and convenient place to stay while their seriously ill loved one is hospitalized.

A home away from home, the Bailey House is situated two blocks from Harrisburg Hospital at 119 & 121 Washington Street. The Bailey House manager is Catherine Moussa, reservations can be made by calling 717-525-4115 or emailing cmoussa@pinnaclehealth.org.

Bailey House
Harrisburg Campus
119 & 121 Washington Street, Harrisburg, PA 17104
(717) 525-4115
BONE AND JOINT CENTER

The PinnacleHealth Bone & Joint Center manages non-surgical orthopedic/sports related injuries and conditions that affect a patient’s ability to exercise, participate in sports or maintain an active lifestyle. These injuries include acute sprains/strains, fracture care (broken bones), ligament/cartilage injuries and overuse injuries. They also offer a comprehensive concussion management program and are a certified ImpACT consultant (CIC).

BONE AND JOINT INSTITUTE

The PinnacleHealth Bone and Joint Institute includes the Bone and Joint Center and affiliated orthopedic surgeons. Non-operative orthopedic/sports medicine related injuries and conditions can be managed at the Bone and Joint Center. If orthopedic surgery is indicated, a referral will be made to one of the highly skilled orthopedic surgeons affiliated with the Bone and Joint Institute.

For more information about the services and specialists at the Bone and Joint Institute, please call the Bone and Joint Center at (717) 791-2620.

CORONARY CALCIUM SCORING SCREENING

Coronary Calcium Screening (CCS) is a five-minute CT scan (also known as computed tomography) that uses imaging technology to detect buildup of calcium and plaque in the walls of the arteries in your heart. CCS may identify heart disease prior to a cardiac event. This is a cash-pay service not covered by insurance. The out-of-pocket fee is $150.

HEART FAILURE CENTER

Our Nurse Navigators are registered nurses that assist heart failure patients to get the best care, identify barriers to self-care, develop a plan for heart failure care in the community and be an ongoing resource.

Our Nurse Practitioners (CRNPs) are part of the PinnacleHealth CardioVascular Institute team, specializing in the management and treatment of heart failure. The CRNPs work very closely with patients’ PCPs and cardiologist to manage heart failure care and provide the best quality of life immediately after a hospitalization for heart failure.

LUNG CANCER SCREENING

Early detection and diagnosis of a pulmonary nodule, which may be cancerous, provides the best chance for a cure. Lung cancer screening is a five-minute CT scan (also known as computed tomography) that uses imaging technology to detect pulmonary nodules in the lungs, which may or may not be malignant. Some insurance carriers, including Medicare, are now covering the cost of this screening for eligible beneficiaries. To be eligible for the screening, individuals must be:

• Age 55-77
• Asymptomatic (no signs of lung cancer such as chest pain or coughing up blood)
• Current or former heavy smoker (30 pack-year minimum smoking history)

Eligible individuals without insurance coverage may pay for the screening out-of-pocket for $150.

Phone: (717) 231-8399 | Toll-Free: 1-855-855-Lung | Fax: (717) 231-8568
LUNG SPECIALISTS

Major medical studies demonstrate that the greatest benefit from lung cancer screening is gained when the screening is completed at medical facilities with access to multi-disciplinary lung cancer diagnosis and treatment programs. In conjunction with Pulmonary & Critical Care Medicine of Central Pennsylvania, PinnacleHealth was the first health system in central Pennsylvania to establish a multi-disciplinary pulmonary nodule clinic in 2011 and lung cancer screening program in 2012. The PinnacleHealth lung cancer screening program has been nationally recognized as a screening center of excellence by the Lung Cancer Alliance and the American College of Radiology. In 2015, the PinnacleHealth Lung Cancer Screening program has performed more than 180 LDCT screenings.

LYMPHEDEMA THERAPY

A specially trained physical therapist will provide a gentle, non-invasive and highly effective treatment called complete decongestive physiotherapy (CDP). This is a combination of massage, compression therapy, remedial exercises, and skin care to promote lymphatic drainage. The first phase takes two to four weeks of intensive decongestive treatments. Depending on your patient’s condition, you may receive two to three treatments each week. Each treatment takes about an hour. The second phase is a maintenance program that you continue at home. It includes phase one components in addition to the use of a compression sleeve or garment.

NEPHROLOGY

Nephrology concerns the diagnosis and treatment of kidney diseases, including electrolyte disturbances and hypertension, and the care of those requiring renal replacement therapy, including dialysis and renal transplant patients. Many diseases affecting the kidney are systemic disorders not limited to the organ itself, and may require special treatment.

SPINE CARE CENTER
The Spine Care Center is the first step in the non-surgical treatment for patients with neck and back pain and other spine conditions in an outpatient setting. The trained staff at the Spine Care Center will provide triage, assessment and an individualized treatment plan for patients. Our goal to assess the patient’s condition and make the appropriate treatment recommendation within a few days.

Whether the patient is seen at our Spine Care Center or referred to one of our specialists within the PinnacleHealth Spine Institute, we will partner with the patient’s healthcare provider to ensure the patient receives expedited and coordinated quality care. Each patient is also followed by a nurse navigator who coordinates care delivery and follows the patient through recovery.

SUPPORTIVE CARE AND PALLIATIVE MEDICINE

Supportive Care and Palliative Medicine is a unique program that focuses on comprehensive management of physical, emotional, social and spiritual needs of patients and families living with progressive, chronic, life-limiting illness, regardless of life expectancy or treatment options. The Supportive Care and Palliative Medicine Team may be consulted at any stage of illness.

Those who may benefit from Supportive Care and Palliative Medicine are those with Life-limiting Symptoms of:
- Cancer
- Chronic Obstructive Pulmonary Disease
- Dementia
- Heart Disease
- HIV/AIDS
- Kidney Disease
- Life-limiting Stroke
- Life-limiting Trauma
- Liver Disease
- Neurological Trauma

John F. McGurrin, MD
VASCULAR SCREENINGS

Vascular screenings help determine if a patient is at risk for peripheral vascular disease or stroke. We offer vascular screenings one Saturday each month at our PinnacleHealth CardioVascular Institute Wormleysburg office. Physician prescription is required. These Doppler ultrasound screenings include carotid artery screening, abdominal aorta screening, ankle/brachial index and blood pressure/cardiac rhythm strip for atrial fibrillation.

This is a cash pay service; each individual screening is $30 or all four for $100.

PinnacleHealth CardioVascular Institute
1000 North Front Street, Wormleysburg, PA 17043
Phone: (717) 441-0580
VASCULAR SERVICES

Part of PinnacleHealth CardioVascular Institute, PinnacleHealth Vascular Group is a team of four board-certified specialists, representing vascular surgery and interventional cardiology. We offer the full range of care for the blood vessels outside the heart, including preventive screening, diagnostic testing and treatment.

All referrals should be made by calling (717) 731-0101.
